

Payroll Services

Few people understand what it's like to be an employer. We do!

Our payroll system removes the administrative burden you face, as an employer, every time you pay your staff.

Managing payroll, is no trivial task. During each payment cycle you are under pressure to ensure;

- ✓ wages and salaries are processed on time
- ✓ there are no underpayments or overpayments
- ✓ tax, national insurance and pension deductions are accurately calculated
- ✓

PAYROLL

overtime earnings, pay rises and bonuses are correctly included
✓
items like loan repayments or charitable donations are properly taken into account
✓
all details are clearly presented on each employee payslip.

Our system is designed to handle these tasks quickly and effectively, eliminating the kind of payroll problems that can lead to an unhappy workforce.

Beyond payroll bureau services

With so many factors affecting your employees payslips, it can be hard for you to keep up-to-date with them all. So we do that for you.

Besides providing high quality payroll processing, we offer expert guidance on tax and employment legislation. We stay abreast of current developments and alert you to changes that might affect you or your colleagues.

What we offer goes well beyond the services of a traditional payroll bureau. While they simply process wages and salaries, we oversee your entire payroll operation. We identify potential difficulties and sort them out before each pay run, to ensure a professional business payroll service is maintained at all times.

Our Payroll department is already used by a range of businesses. By choosing us as your outsourcing partner you can be confident you are placing your payroll in safe and highly trained hands.

Our fees start from as little as £15 per week. If you would like to send us an email of how many staff you have, how often your payroll run is and we can give you a specific charge for your business.
